Searchbox for Cartopia AIR

System Requirements

Minimum system requirement:

| | |
|-------------------------|---|
| Operating system | Windows 7 or above (64-bit) |
| Memory | 8GB |
| Hard drive | Minimum 500 MB free space for each Cartopia AIR instance. |

For optimum performance we recommend 16 GB RAM (depending upon the features being edited).

Installation Prerequisite

- All **Windows Cartopia AIR** users must execute the batch file present here :

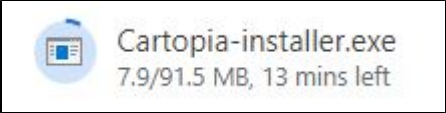

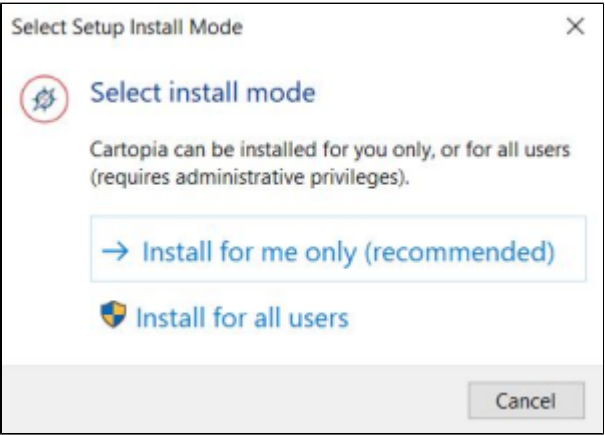

SystemUpdateRe...onnections.zip

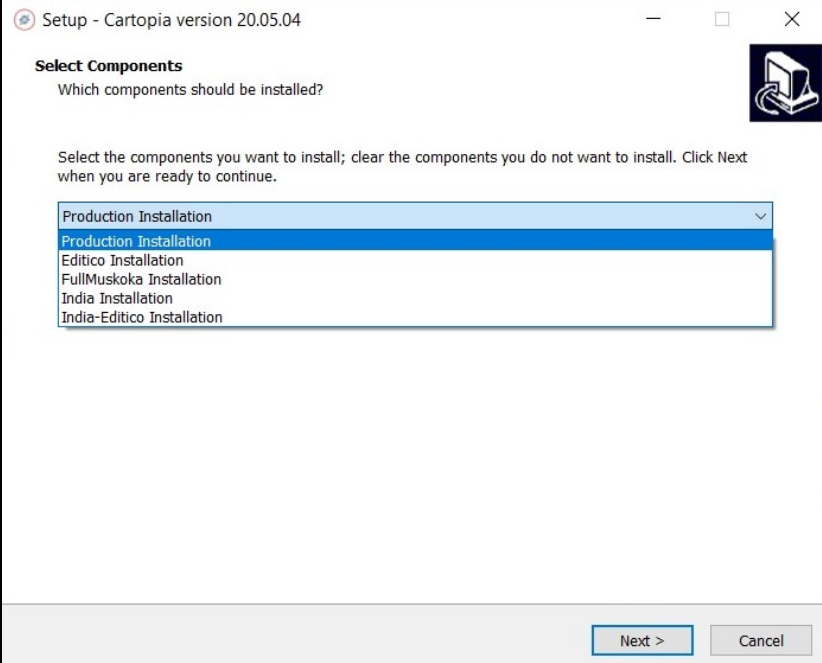

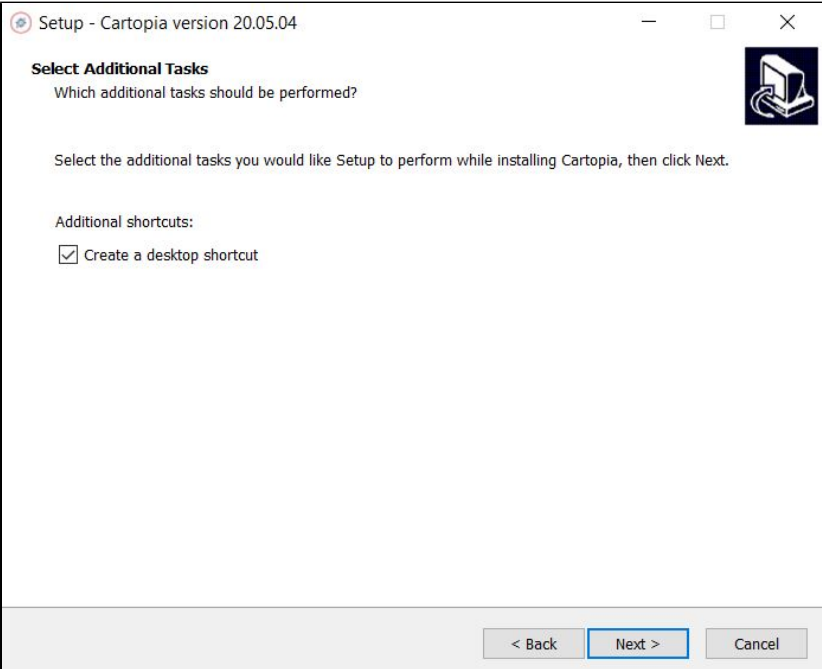

- This batch file will make an entry in registry to increase "MaxConnectionsPerProxy".
- With this script we are expecting improvement in Layer Loading time.
- No repeated script execution will be required for different users.

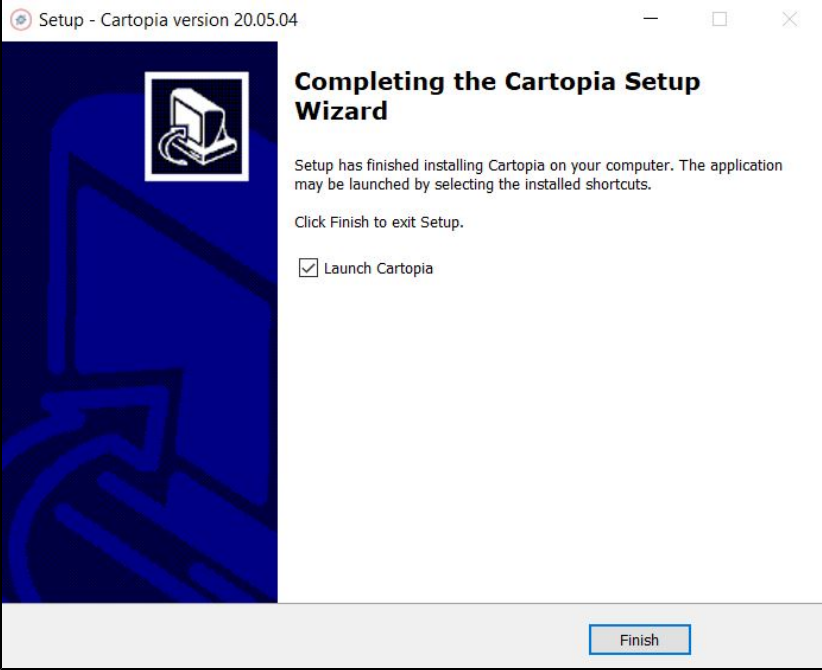

First time download URLs for Cartopia AIR

| Environment/Viewer applications | OS | URL Information |
|--|---------|---|
| Production, Editico | Windows | http://cartopia-air-update-prod.maps-applications-prod.amiefarm.com/getCartopiaAIR |
| India, India-Editico, India-Seaming | Windows | http://cartopia-air-update-prod.maps-applications-prod.amiefarm.com/india/getCartopiaAIR |

| TTMapView and TTMoMaViewer | Windows | Setup links are available only on request. Email Cartopia development team at Lakshminarayan.Agrahari@cyient.com to get the link/s. |
| Production | Linux | Not supported |

Installation Steps

| Step | Description | Image |
|------|---|--|
| 1. | After clicking on the appropriate download URLs mentioned above, the software starts downloading automatically. You have to 'Run' the package after installation is complete. |  |
| 2. | It is recommended that you select the default option 'Install for me only'. Select second option only if you have 'Admin rights' on the system. |  |

| | | |
|----|--|---|
| 3. | <div data-bbox="245 142 464 168" data-label="Text">FOR WINDOWS USERS ONLY</div> <p>Select the environment you want to set up.</p> |  |
| 4. | <p>It is preferred to have a desktop icon.</p> |  |

| | | |
|----|--|--|
| 5. | Follow the instructions on the Setup wizard. |  |
| 6. | A new installation folder should be automatically created on the C drive root directory (C:\TomTom\Cartopia) | |

Training Site

If you want to learn about editing in Cartopia, a virtual machine where you can practice without affecting the 'real' data can be set up for you. If you haven't already received a unique URL for your Cartopia training site, please request one from your QTM or trainer, or from training.desk@tomtom.com, before you begin working with Cartopia.
